Blairmore Alberta

Letter From
Blairmore Boy\$4,000,000 a Year
For War Pensions

Silas Huntington Patton, son of Mr. and Mrs. J. B. Patton, of Blairmore, who is with the 10th Western Canada Regiment in France, writes to his parents under recent date.

He states: "I am going on all right. It's very near a year since we declared war on the Hun, but I think by this time next year it will be all over—at any rate we hope so."

"I have written to Walter Howe, but have not received an answer. He is in some hospital, and I don't know what one it is, so I doubt if he will ever get my letter."

"I hope you are not worrying over me, for your soldier kid is able to take care of himself; but one cannot tell the time he may get it in the trenches. The Germans are a lot of low-down curs. They kill our wounded whenever they get a chance. I have seen them do it myself."

Bodies of 200 Babes
Are Found in Sewers

Human life has been destroyed in wholesale quantities in Toronto during the past two years. The city sewers have during that time given up the bodies of 200 prematurely born babes. The average information was given in a statement by Works Commissioner Harris last week. Even 200 is a small estimate of the number of slaughtered innocents as the number found is only those caught in the screens at the sewerage disposal plant at Morley avenue. No estimate of those that have gone through can be made.

The Commissioner of Works stated that the discoveries were reported to the Chief Coroner, with a view to the matter being taken up by the police. However, such a course was considered useless, as there were no clues presented. The sewerage comes from all parts of the city, and therefore it would be impossible to ascertain where the bodies were deposited.

The statement means that at least 100 babes are destroyed a year in Toronto. The police, however, have nothing to work upon, and the Chief Coroner can do nothing. The present number

An Englishman, Irishman, and Scotchman, made an agreement among themselves, that whoever died first, should have five pounds piled on his coffin by each of the others. The Irishman was the first to die. Shortly afterward, the Scotchman met the Englishman, and asked him if he had fulfilled the agreement.

"Yes," said the Englishman, "I put on five sovereigns. What did you put on?"

"Oh, I just wrote my cheque for ten pounds," said the Scotchman, "an took your five sovereigns as change."

Pincher Creek's tax rate for this year will be 12 mills.

Beebe-Dutil—That the secretary will be instructed to proceed with the 1914 tax enforcement return at once. Carried.

Beebe-Dutil—That the secretary

shows little decrease from any time during the two years.—Tercio

A Noteworthy Example

Colliery Officials Set Aside 5 Per Cent. of Salaries For Patriotic Purposes, and Ask Miners For 2 Per Cent.

A meeting of the officials of the West Canadian Collieries, Limited, was held at Bellevue on Sunday last, in the Eagles hall, with W. P. Williams, superintendent of Bellevue mines, in the chair.

The chairman on calling the meeting to order remarked that the collections already made on behalf of the Patriotic Fund for local relief viz. 2 per cent of each official's salary, had reached the amount of \$747.00, and asked the meeting to decide as to the disposition of this money, and also to decide whether to continue the collections at 2 per cent or raise it to say 5 per cent, or discontinue it altogether.

Mr. Allan Hamilton made a few pointed remarks on the original intention of the collection, and suggested that this fund be used for the relief of the families of the Company's employees, who were now on active service, and that a new subscription be at once started for the purpose of purchasing a machine gun.

After some discussion along the lines suggested by Mr.

Hamilton, the following resolutions were put, and carried unanimously:

Resolved, That the entire fund now on hand be turned over to the Canadian Patriotic Fund.

Resolved, That each official of the West Canadian Collieries, Limited, be asked to contribute 5 per cent of his monthly salary, and the monies so collected to be divided equally between the Canadian Patriotic Fund and the Canadian Red Cross Fund.

Resolved, That all employees of the West Canadian Collieries, Limited, other than officials be asked to contribute not less than 2 per cent of their wages, disposition of same to be same as previous motion.

Resolved, That the following committee be appointed to carry out the demands of the previous motions. W. H. Chappell, Jr., A. Hamilton and W. G. Pearson.

W. P. WILLIAMS,
Chairman.W. H. CHAPPELL, Jr.,
Secretary.

Meeting of Town Council

The regular meeting of the Blairmore town council was held last night, when D. A. Sinclair donned the robes of office as Mayor and presided. Councillors Beebe, Rosse, Evans, and Dutil were present.

The minutes of previous meeting were on motion approved.

Communications were received from the West Canadian Collieries and Supt. Starnes, of the Royal North West Mounted Police.

The following accounts were duly passed: W. A. Beebe \$20, Remington Typewriter & Co. \$3.00, W. A. Henderson Co. \$37.50, Rocky Mountain Cement Co. \$5.80.

Beebe-Rosse—That the secretary be instructed to write the West Canadian Collieries Co. that when they can show the council that they have farm lands that were assessed in 1913 14, the council will be in a position to consider their application. Carried.

Beebe-Rosse—That the superintendent of the R.N.W.M.P. be advised in reply to his letter of August 10th that we have our own by-laws for the enforcement of law in the town, and we also have our own police to look after the carrying out of these by-laws. We are naturally anxious to have our own police collect any revenue that may be coming instead of reverting to the provincial government, which now happens when the mounted police take action. Carried.

Dutil-Beebe—That the secretary write the Rocky Mountain Cement Co. and ascertain if they will allow the town to use their electric light pole line, provided the Town could buy the current from another source, although the town would prefer that the present arrangements be continued. Carried.

Beebe-Dutil—That the secretary

shows little decrease from any time during the two years.—Tercio

Beebe-Rosse—That the following committees be appointed:

Works and Property—W. A.

Beebe, M. Rosse, W. Evans.

Waterworks—L. H. Putnam.

W. J. Bartlett, L. Dutil.

License and Police—M. Rosse.

W. Evans, W. A. Beebe.

Health and Relief—W. J.

Bartlett, W. A. Beebe, L. H.

Putnam.

Fire and Light—L. Dutil, W.

J. Bartlett, L. H. Putnam.

Finance—W. Evans, L. Dutil.

M. Rosse.

The first named in all cases to be chairman of committee.

Carried.

Council adjourned at 10 p.m.

Beebe-Rosse—That the secretary

be instructed to write the West Canadian Collieries Co. that when they can show the council that they have farm lands that were assessed in 1913 14, the council will be in a position to consider their application. Carried.

SYNOPSIS OF COAL MINING REGULATIONS

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, and in a portion of the Province of British Columbia, may be leased for a term of twenty years, and the lessee may, during that period, for more than \$2,500 per acre, be leased to one applicant for a lease must be made by the applicant in the district in which the rights applied for are situated.

Each application must be accompanied by a fee of \$50 which will be retained by the rights and may be used as a deposit, but not otherwise.

A royalty shall be paid on the mercantile value of the coal produced, and the amount may be varied by sections or legal subdivisions of the land.

Any person operating the mine shall furnish the Agent with sworn returns accounting for the coal produced, and the coal mined, and may pay the royalty thereon. If the coal mining rights are not being operated, the royalties will be paid on the coal produced.

The lease will include the coal mining rights on the land, and the lessee may, during the lease, whatever other rights may be retained by the lessee, and may be used as a deposit, at the rate of \$500 per acre.

For the payment of the royalty, a return should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of the Department.

W. W. COOPER
Deputy Minister of the Interior
X. R.—Unauthorized publication of this advertisement will not be held for—\$500.

SYNOPSIS OF CANADIAN NORTH WEST LAND REGULATIONS

THE sole head of a family, or any male over 18 years old, may homestead a quarter-section of land in the provinces of Manitoba, Saskatchewan or Alberta. The applicant must be a citizen of Canada, or a subject of the Queen, or Sub-Agent for the District. Entry by proxy may be made at any Dominion Land Office.

Butler: Six months residence upon and cultivation of the land. The homesteader may live within nine miles of his homestead, but must have a place where residence may be performed in the vicinity.

In certain districts a homesteader is entitled to a pre-emption quarter-section along side his homestead. Price \$100 per acre.

Butler: Six months residence upon and cultivation of the land. The homesteader may live within nine miles of his homestead, but must have a place where residence may be performed in the vicinity.

The area of cultivation is subject to residence in case of rough, scrubby or stony land, and the homesteader may cultivate under certain conditions.

Building Giant Aeroplanes

Number of Machines Has Increased

Tenfold in Few Months

Great Britain is making preparations to carry on an air war on a scale. Under-Secretary of State for War Harold Tennant made this important admission in the house of commons, in response to a question by a member of the opposition, when the German air forces were surpassing the British.

The government is now manufacturing giant aeroplanes similar to the Russian Sikorsky, which carries five men and five tons as much explosive as the ordinary flying machine. Air War Harold Tennant made this important admission in the house of commons, in response to a question by a member of the opposition, when the German air forces were surpassing the British.

"British aviators have demonstrated their superiority over the Germans," Dr. F. F. Fennant said. "February there has been no shortage of high-explosive bombs. On the contrary we have now a reserve supply for all purposes."

This statement was made in reply to the suggestion by a member of the house that the British character had passed to deal adequately with the raiding Zeppelins.

Exhausted. From Asthma—Many who read these words know the terrible drain upon health and strength, which comes in the time of trouble. Many do not realize, however, that there is one true remedy which is often overlooked.

J. D. Kellogg, Asthma Remedy is a wonderful check to this everlasting ailment. It has a countless record of relief, it is sold almost everywhere.

The Kellogg Company.

While Canadian soldiers were encamping and preparing for Langemarck and all the hell and horror of shell and machine gun bombardment, of the terrible suffering and death, the suffering, politicians in Ottawa were profligate on the bandages to be used for binding the Canadian wounded. At \$40.00 a box, the fine dressings had been placed, and the horror of so much wounding and maiming to require \$40.00 for a few and the cost of unlimbering the political parasites have strong stomachs—Ottawa Citizens.

Mr. MacDonald's two nurses were spending their summer holidays at her residence. The day following their arrival, she received a telegram from her invitation to accompany her to the church service. They were all seated in the church when the three passed down the aisle the minister was giving out his text, which read: "What are these who are arrayed in robes? Their coming were rather started to hear Mrs. MacDonald making the reply: "They're my two nieces, Fae Edmonson."

"You'll have to send for another doctor," said the one who had been called, after a brief glance at the patient.

"Am I so ill as that?" gasped the sufferer.

"I don't know just how ill you are," replied the man of medicine, "but I know you're the lawyer who cross-examined me when I appeared as an expert witness."

"My wife is dead," he said.

"I let me kill you, and I'll be hanged if I want to cure you. Good-day."

Farmer's Income

A Fuller Utilization of All the Farm's Resources Should be Made

Extensive investigations into the profits of farming have indicated that the amount of money which the average farmer can expect to earn and spend is little more than that which he would be paid if he hired himself out. A farm hand to one of his neighbors, for instance, the farmer is in business for himself, the average farmer gets little or no more than the cost of his labor, skill with which he has managed his affairs of the risk and responsibility he has assumed. But he must get himself in ready to meet the trouble to farm for himself. A recent study conducted by experts in the United States Department of Agriculture has shown that the reward may best be found in the products with which his farm family can supply its needs. It is necessary to outfit the family that lives upon it with most of the necessities of life, and the more necessary it is to the family, the greater sum derived from a farm which yields nothing for home consumption may have to be given up.

The farms selected for study, though possibly a little more prosperous than the average, were representative of the various areas which included three corn and cotton areas, two states in the corn and wheat belt, and two areas where dairying was carried on, and three different dairy districts. The average value of the chief products of each farm, oil and fertilizer, each year, by the farm family, the investigators found to be \$556.08. Of these necessities derived from a farm, 50 per cent was given up to the market, 21 per cent to the family, 21 per cent to the farm family, and 18 per cent was attributed directly by the farm to be purchased with the cash obtained from the market. In view of these figures it must be remembered that if the farmer has been compelled to pay city prices for his home-grown products, the market value of these represented much less comfort.

Of the food consumed, 63 per cent, or 32.5 per cent of the value of the food consumed, groceries constituted practically one-quarter, animal products more than one-half, and vegetables 11.5 per cent, or 5.3 per cent.

Practically all of the groceries were bought; on the other hand the quality of fruits and vegetables was not so good, and the quantity raised on the farm and where this quantity was great the greater the waste.

It is the opinion that better

markets could be obtained for the goods if prices were reduced a little.

—Journal of Commerce.

Price of Canned Goods Likely to Remain Firm

Friction Has Arisen Regarding the Continuation of the Expired Trade Agreement but an Agreement is Expected

The report that the canning trade, so far as the canner, who is in a state of chaos and that the goods are being sold to consumers at almost cost price, is not true. The statement is exaggerated, it is a fact, however, that some friction has arisen regarding the continuation of the expired trade agreement with the United States Company, whereby the company sold the goods to the wholesaler at listed prices, who in turn arranged with the canner for the price at which the goods were to be disposed of to the consumer, but this is only a matter of adjustment, the price at which the goods are to be disposed of to the consumer, is great, however, in the mind of the canner, with which he has managed his affairs of the risk and responsibility he has assumed. But he must get himself in ready to meet the trouble to farm for himself. A recent study conducted by experts in the United States Department of Agriculture has shown that the reward may best be found in the products with which his farm family can supply its needs. It is necessary to outfit the family that lives upon it with most of the necessities of life, and the more necessary it is to the family, the greater sum derived from a farm which yields nothing for home consumption may have to be given up.

In the meantime a few wholesalers and retailers, particularly the latter, who have large stocks of canned goods, are not in a position to have advantage of the expired agreement by offering the goods at a reduced price, but after a canvass of the trade, the Journal of Commerce is in position to state definitely that the price of the goods will remain at original prices and have no intention of selling at less. Future prices, however, will very likely depend upon what advantage the canner can have by continuing the agreement which fixed such prices, but the general assumption is that the price will remain at original prices.

—Journal of Commerce.

Steel to Prevent Wrecks

A steel railroad tie has recently been invented which, it is claimed, will do away with a large percentage of railroad wrecks. The tie absolutely prevents rail from spreading, and on account of its great surface it makes an excellent cattle guard also. For the same reason the tie is said to be a difficult time following a railroad accident. The new tie is made of a difficult material, and when once it is in place, it is said to be a great improvement in safety for the public.

The slackness in the trade was undoubtedly the cause of the rupture in the market as seen in many cities, but the market is now in a position to have a better future, as his parents alarmed very much, as he imagined they were much smaller.

NO ALUM MAGIC BAKING POWDER

Puzzles to the Blind

Locks of "Sise Sense" Gives them Ideas About Animals

The path of the teacher of the blind with his guide dog is the path of the greatest being the task of conveying to their mind some idea of the size, shape and features of birds and animals. The guide dog, however, is not used, but owing to their small size they are, say the least, of doubtful advantage.

The man who is blind is great, however, in the mind of the canner, with which he has managed his affairs of the risk and responsibility he has assumed. But he must get himself in ready to meet the trouble to farm for himself. A recent study conducted by experts in the United States Department of Agriculture has shown that the reward may best be found in the products with which his farm family can supply its needs. It is necessary to outfit the family that lives upon it with most of the necessities of life, and the more necessary it is to the family, the greater sum derived from a farm which yields nothing for home consumption may have to be given up.

COLLIERIES, LTD., AS HE LIVES IN 1911, OR INFORMATION
ABOUT A VAHICLE SET OF BOOKS, OR STAND-
ARDS, OR OTHER VALUABLE PROPERTY WHICH
THE ADVERTISER DELIVERED TO MR. HUMPHREY
WHICH HE HAS SINCE LOST.

Latest reports state that two
armed cruisers had successfully
penetrated the Dardanelles, and
several Turkish troop sloops had
been sunk.

FOR SALE—One Victor Gramaphone,
with several records. Also
an Edison Phonograph with records.
All in good condition. Terms cash.
Apply to The Enterprise.

FOR RENT—A seven-roomed
cottage, with furnace, water and
electric lights installed. Rental
\$15 per month. Also, for sale, a
small cooking range. Apply to J.
H. Farmer, Blairmore.

The investigations into the work-
ings of certain oil companies were

commenced last week, a start be-
ing made on the Western Canada
company. Findings revealed that

\$22,000 had somehow disappeared

into thin air, and that the manage-
ment of the company generally had

been along the most amateurish
lines.

Criticism having been made that
incapacitated Canadian soldiers

were only to be provided for under

the pension system to the extent of

\$5 per week, it is pointed out by

the militia department that under

the new allowance could be made

for an increased grant in cases

where it was deemed necessary,

and that moreover the scheme of

pensions is not necessarily final.

Moreover, an incapacitated soldier,

if friendless, can go to a convales-
cent home where he will be ac-
corded every attention. Should he

remain at home he will be entitled

to a special allowance for an at-
tendant.

British Columbia is supplying a
good deal of paper to Australia.

Corps. David Kemp and H.
Merrill were down from Sarcee
this week.

Private G. Granderson, of Mac-
leod, is visiting friends in Blair-
more for a few days.

W. Shaw, mine inspector, has
moved from Dearborn Street to
the corner of Eleventh Avenue and
State Street.

Rev. A. H. Denoon and family,
of Lethbridge, after spending a
month in Blairmore, returned home
this week.

Capt. A. C. C. Johnston and
Corp. Learne came down from
Calgary on Monday to enlist re-
cruits for the 50th C.M.R.

Sergt. C. E. F. Hiscocks and
